## Epoxy Rubber Tile Adhesive

Epoxy Rubber Tile Adhesive must be used with Orbitred Tile due to flame spread properties (other adhesives will not bond to this tile). This epoxy, however, can also be used with other rubber stair treads, and rubber tiles as well.

Epoxy Rubber Tile Adhesive is a two-part solvent-free system: simply mix 1 can of "Part A" with 1 can of "Part B" using a stirring paddle (included with order).

This mixture will covers approximately 150 SF.

Item No: STADHERTA
