

Heated Entrance Floor Mats: Ice/Snow Melting Mats

Ice and Snow Melting Mats are a convenient, efficient and reliable solution to prevent snow and ice accumulation by doors and entrances.

- Our Heated Entrance Mats are certainly less expensive than embedded heating systems yet offer the convenience and portability of traditional door mats.
- Ice and Snow Mats are made of an electrically operated heating element sandwiched between two protective surfaces of non-slip rubber.
- Plugs into any standard 110V outlet. Melts up to two inches of accumulated snow in less than one hour. Comes with a 15 foot power cord that plugs into standard outlets using its own Equipment Leakage Circuit Interrupter (ELCI).
- Designed to be left outside for the entire winter season. Each heated mat is built and tested according to the IEEE 515.1 electrical standard.
- Entrances, sidewalks, ramps, handicap-accessible structures, loading docks, hospitals, nursing homes, hotels, schools, churches, private homes, garages, and more.

Item No: AHEFMISMM
