

Industrial WorkSafe Anti-Fatigue Mats: NBR Rubber

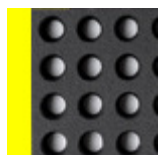

These specially designed Industrial WorkSafe Anti-Fatigue Mats are designed for areas exposed to petrochemicals and petroleum based fluids. The mats are formulated with industrial-grade NBR rubber that resists many chemicals, oils, other fluids. These mats offer bright, molded-in safety borders for added safety.

- Large drain holes allow liquids, debris and shavings to flow through the mat while the knobs on the underside allow them to flow away from the mat.
- The textured surface of this heavy-duty anti-fatigue mat provides for extra traction in areas exposed to petrochemicals and petroleum based fluids.
- Available in 5/8" thickness.
- An OSHA approved yellow beveled safety border is molded into each side of the mat for a permanent application compared to other safety borders which only snap on.

Item No: FIW-NBR

Standard Sizes (Approximate)

Size	Qty. 1	Qty. 2-10	Qty. 11-25	Qty. 26+
