

Boot Scraper

Boot Scrapers are made of hundreds of heavy-duty rubber fingers that work their way into the sides and bottom of dirty shoes and boots removing mud, snow, grass, salt, sand and just about any other type of debris that shouldn't be tracked inside.

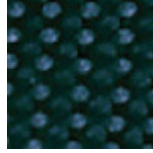

- The nubs on the bottom and sides of the boot scrapers are flexible to conform to the shape of any shoe while being durable enough to hold up in just about any environment.
- The Boot Scraper works quite well alongside a traditional door mat in especially messy areas, or as a stand-alone item in extra small spaces.
- Bolt down or use stakes with the Boot Scraper for a permanent installation. This boot mat can also act as a mobile door mat for people who often work in messy/dirty areas and frequently travel to different locations.
- Alternative boot scrapers made with stiff coir bristles can quickly get clogged up. Our recycled rubber boot scraper, however, is quite easy to clean. Dirt and debris can be shaken or hosed off easily, while snow and ice melt off.
- Dimensions: 15.25" W x 12.38" H

Item No: MS.A

Standard Sizes (Approximate)

Size	Qty. 1	Qty. 2-10	Qty. 11-25	Qty. 26+
